PROFESSIONAL SUMMARY

Web Developer with 15 years of experience leading website migrations, redesigns, and modernization initiatives across 350+ public-facing and institutional websites. Proven track record migrating sites from legacy platforms into modern content management systems, with deep expertise in responsive web design, ADA and WCAG 2.1 accessibility compliance, content restructuring, and information architecture. Comfortable working directly across HTML5, CSS3, and JavaScript, and demonstrated ability to learn new CMS platforms quickly across WordPress, Shopify, HubSpot, Squarespace, Wix, Webflow, and a proprietary Java and PHP platform. Recognized by colleagues and clients for delivery focus and stakeholder collaboration, with 9 professional recommendations on LinkedIn.

TECHNICAL SKILLS

Languages and Markup: HTML5, CSS3, SCSS, JavaScript, jQuery, PHP

CMS Platforms: WordPress, Shopify, HubSpot, Squarespace, Wix, Webflow, Jekyll, Divi, Elementor

Accessibility and Standards: Web Accessibility Guidelines (WCAG 2.1), Americans with Disabilities Act (ADA), Responsive Web Design, Cross-browser Testing, Website Quality Assurance, SEO Optimization, Performance Optimization, Google Analytics

Frameworks and Tools: Git, GitHub, Docker, Visual Studio Code, npm, Node.js, REST APIs, Jamstack, Netlify, Version Control

AI and Automation: Claude Code, Anthropic API, LLM-powered workflow automation, agentic task execution, prompt engineering, AI-assisted code generation, cron-based scheduling, Markdown report generation

Project Management Tools: Jira, Confluence, Trello, Monday.com, Google Workspace, Microsoft Office Suite, Figma, Adobe Creative Suite, Affinity Suite

CORE COMPETENCIES

Website Migration and Modernization, Content Management Systems (CMS), Web Accessibility (ADA and WCAG 2.1), Responsive Web Design, Information Architecture, Content Strategy, Front-End Development, Stakeholder Collaboration, Website Testing and Quality Assurance (QA), UI/UX, Project Management, Cross-functional Collaboration, Client Communication, AI-Assisted Development

WORK EXPERIENCE

Skyrocket Education - Pasadena, CA

Web Developer

October 2022 to September 2025

- Served as primary developer for 50+ educational institution websites on the WordPress CMS, ensuring WCAG 2.1 and ADA accessibility compliance and user-centered design across all platforms
- Led content migrations, page creation, site restructuring, and navigation updates across multiple client sites, improving information architecture and overall usability
- Designed and implemented responsive, accessible, and user-friendly web experiences using HTML5, CSS3, and JavaScript
- Developed and implemented an integrated online enrollment system using PHP and REST API integrations, enabling year-round student registration and application processing
- Performed cross-browser testing, performance optimization, and responsive design QA across all managed sites
- Collaborated directly with stakeholders to gather requirements, recommend content and structural improvements, and manage multiple website projects simultaneously against project timelines

Edlio - Los Angeles, CA

Front-End Web Developer and Production Coordinator

February 2015 to March 2022

- Led the migration and redesign of 350+ educational websites from legacy setups into Edlio's proprietary Java and PHP CMS platform (not WordPress), working from conception through deployment with HTML5, CSS3, JavaScript, and PHP
- Developed and tested codebases aligned with ADA and WCAG 2.1 accessibility compliance requirements across all client projects, including site restructuring and navigation updates during migrations
- Designed and built a customer-facing project portfolio platform using responsive web design principles, streamlining the sales process and enabling clients to visualize development options
- Collaborated with cross-functional teams including designers, developers, and stakeholders to gather requirements and coordinate planning, design, and technical delivery of complex website migrations
- Optimized production workflows, testing, and client communication protocols across all phases of the web development lifecycle, improving project delivery timelines while managing multiple concurrent projects

EDUCATION AND CERTIFICATIONS

California State University, Fullerton

Bachelor of Fine Arts (BFA), Graphic Design

General Assembly

Front-End Web Development Certificate

UCLA Extension

Web Design II: JavaScript and jQuery

Anthropic / Self-Directed

Claude Code - AI-Assisted Development, Workflow Automation, and Agentic Task Execution
(Ongoing)
